THE BEST OF HUMANITY

On the 11th, 2001, **9-11** has become synonymous with the attack on Pearl Harbor. In a slumber, America is shaken to its core as planes crash into the World Trade Center, the Pentagon, and a field in Pennsylvania. Out of the ashes and rubble of what once stood, America came together. It might also be debated that our entry into war may not have been our best choice. In any event, charity shows itself as a beacon in the night, when people of all cultures showed the best of humanity. As the entire air traffic control system over north America came to a halt, people and communities came together. Doors were opened and society became civil for a season. Organizations such as **Tunnel to Towers**, www.T2T.org were born.

WHAT QUALIFIES A VOTER?

On the 13th, **56 Days till Midterms**, are you prepared to figure out how you will vote? Much has been said about how each vote counts. They do, but also educate yourself on the need for safe-secure elections. This is what has supported our Republic for 240+ years. Consider your vote today and how a person qualifies to cast a vote. In WA state, no identification is required, machines are allowed to approve signatures, witness signatures can be done by anyone, with any kind of mark. Ask, *how are voters qualified where you live? How can we make elections more secure, while allowing for eligible voters to vote? Does it matter?* Get involved.

WHAT FREEDOMS DO YOU ENJOY?

On the 17th, **Constitution Day**, a day that is largely forgotten. We celebrate **July 4th** as a day of independence, yet we fail to revere the day that guarantees the liberty's we enjoy.

Maybe our failure to recognize the origins of the Constitution and our Bill of Rights, has allowed for us to minimize the importance of the documents which protect the freedoms we enjoy.

Take time to study the Roles, Responsibilities and Powers enshrined in these sacred documents. This is what has allowed for the generations of one country "America" to benefit a global population, by raising the standard of living for all.

Ask and then learn, *why are these documents so unique?* Doing so will ensure a renewed interest to press forward and do good, ensuring a legacy for generations to come.
