

WE THE PEOPLE
FINDING PURPOSE

“Congress shall make no law... abridging... the right of the people... to petition the Government for a redress of grievances.”

Every person began life, as two people came together to create a life, intentional or not. For most, this included a family unit, for others it meant entering a world where society found a place for you to be nurtured.

Within the USA, we have inherited this legacy we call a Constitutional Republic. By now we know that the writings of the Founding Fathers, and the documents they created, i.e., the **Declaration of Independence**, the **Constitution**, and the **Bill of Rights**, have extended the legacy of Truth seekers over millennia. All of us, regardless of family status, are beneficiaries.

History has a funny way of showing what was contributed at each point in our history. Today, Critical Race Theory or CRT is trying to retell the history of society as it relates to Racism. Likewise, there have been efforts to expand the discussion of who exactly found “The New World”, Christopher Columbus, the Vikings (which were both European) or does the answer lay with even earlier migrations from the Middle East, Africa, or Asia and if so are one people entitled to superior rights over another?

Every individual needs to determine how they are to react within their family unit. As a result, there is a time in all families, where you recognize that you need to take charge of how to react. Then determine how your actions will improve life for the next and succeeding generations of your family. For some this means, no children, for others it is about adding to a legacy and building a future for all. What we do with our inheritance is our choice. Future generations will look upon us and judge what we did.

What will you do, to ensure that the Freedoms enjoyed, because of what our Founding Fathers passed on, will be around for future generations to enjoy? **What will be your contribution** to ensure that other societies can enjoy the hope, **that Freedom for all can be a reality?**

Finally, is Petitioning our government a choice? Is what occurred on January 6th, an effort to Petition, a Riot or simply a right to peacefully assemble and protest what many viewed as a lack of confidence in the Voting process?

- **A Choice:** Bob Schultz, believes so. Here is a person that has dedicated much of his life to petitioning and seeking to correct government overreach.
- **A Riot:** See a comparison of 2021, 2020 and 2017.
- **Right to Assemble:** Police recognize right to Peaceful Assembly.
