

THE CONSTITUTION

“STATES ARE RISING”

On the 11th in 1492, yes, a day when as a child we discussed how **Columbus** discovered the world was not flat, as he sailed to India. Only to learn in recent years that several groups of people found their way to the Americas throughout history.¹ However, it was this discovery that brought new light to a land not yet developed by “**Western Society**”, **we might ask Why?**

On the 13th in 1792, the cornerstone on the White House is laid by George Washington, with the completion to be in 1800. George Washington never occupies the White House and within 14 years it will be burned to the ground during the War of 1812 by the British.² With this tragedy, America secures a great victory as well as “**The Star Bangled Banner**”

On the 15th in 1752, Pope Gregory XIII corrects mistakes on the Julian Calendar by dropping 10 days. This is a head scratcher if you are doing Family History research and are trying to understand events in history before 1752.³ The worst part, if you lived at the time was trying to coordinate all the different calendars used.

BONUS INSIGHTS TO NATURAL LAW: Wade John Taylor writes “**(The Declaration of Independence) states clearly that we adhere to the Laws of Nature and that God bestows or entitles us to this law.**”

What is this Natural Law? Aristotle (384 – 322 BC) had learned about the rudimentary ideas of Natural Law while studying in **Plato’s Academy** for twenty years before forming his own academy. His observation of Greeks in their city-states helped him expand the understanding of Nature’s Law and he is considered by many to be **the father of Natural Law**. His observations are critical to the evolution of the entire western civilized world. **Aristotle defined justice into two spheres**. There was **justice of nature**, which is the higher justice of our creator, and then there was the **justice of law** which was defined by men. **When the laws of men encroached on Natural Law then man had the right to appeal to the higher law of nature which trumped the lower laws of men.** ...We are further reminded that governments only function is to secure these rights and that their existence and authority comes explicitly from the consent of the governed. ...Keep in mind that our unalienable rights were further defined in the **Universal Declaration of Human Rights signed in 1948 by the United Nations**. **This act extended our understanding of Natural Law to our entire planet and has never been rescinded.**

What socialists, Marxists, communists, collectivists, and even anarchists are attempting to do is roll back thousands of years of human progression and return us to absolute despotism.

We must defend the absolute rights afforded us by our Creator and outlined in our Declaration of Independence, or risk losing our Liberty.⁴
